Time Space and People, the much-acclaimed series on Social Sciences for Classes 6, 7 and 8, has been revised to meet the guidelines of the new NCERT syllabus. Innovatively designed, the series incorporates the guidelines of the National Curriculum Framework, 2005. Each book in the series contains separate sections on history, geography, and the new subject social and political life.

The history section presents the subject chronologically without any gaps. It enables students to see the relevance of valuing the past and discovering the interrelatedness of past events with the present. The geography section highlights the interdependence of different regions and the interaction between people within the broad structure of natural environments. Finally, the section on social and political life provides students with the knowledge and judgement to participate intelligently in civic life and understand their role in the political and social systems of the country.

Key Features

- Intersperses text with discussion questions and stories to encourage student participation
- Incorporates extracts from various sources followed by introspective questions to aid understanding
- Provides interesting snippets of information through Fact Files
- Includes website references
- Enlivens the subject through case studies, illustration, photographs, timelines and maps
- Contains a wide range of exercises and project work for reinforcement of knowledge
- Provides hands-on experience through the Things to do and Try this! Features to facilitate self-learning
